

CONNECT YOUR WATER HEATER TO THE SUN

GO SOLAR AND CUT YOUR WATER HEATING COSTS IN HALF

With 190 days of sunshine every year, Pendleton is a great place to install a solar water heating system. It's easy and affordable with help from Energy Trust of Oregon and the City of Pendleton.

Lower water heating costs

A solar water heating system can meet up to 70 percent of your water heating needs. A typical family saves up to \$250 each year in energy costs.

Reliable, worry-free performance

Solar water heating systems are built to perform for 20 years or more.

Save up to 65 percent on your system

With an Energy Trust cash incentive, plus state and federal energy tax credits, you can offset up to 65 percent of the installation cost.* Cash incentives are applied up front, reducing what you pay your contractor—and Solarize Pendleton offers interest-free loans as well.

MAKE THE MOST OF THE SUN TODAY

Call any of these local solar trade ally contractors to request a bid.

INTEREST-FREE FINANCING

You may be eligible for a Solarize Pendleton interest-free loan to cover most out-of-pocket costs for a solar water heating system. Ask your solar contractor for details.

For more information on other energy saving incentives, call Energy Trust at **1.866.368.7878** or visit www.energytrust.org/residential.

Serving customers of Portland General Electric, Pacific Power, NW Natural and Cascade Natural Gas.
